ANSCHÜTZ Biathlon rifles

A quantum future – the next step.
Futuristic design with superlative
constructive features. Made for the best.
So you can proudly say:

“MY ANSCHÜTZ”

1827 F BIONIC **IN FOCUS**

The world is white.

The spectators are going wild, your heart is pumping. Adrenalin surges into your fingertips. The snow crunches under the ski.

You swing into the shooting stand and go to the firing position with a flowing movement. Now you bring your heartbeat in your body to an relaxed and calm mode. Control and stabilize the motions. An almost impossible undertaking ...

You stand still and focus. You immerse yourself in your task, block out the noise, the target is in sight.

No thinking, only self-belief. Your training becomes instinct, your rifle repeats at lightning speed and is absolutely smooth. The bullet is on its way from the barrel in 3.5 ms.

No flinching.

Hit – the white disc flips up!

1827 F BIONIC STOCK

AHEAD OF ITS TIME

Demands on a Biathlon rifle are exorbitant: It has to be fast, precise, light and robust but insensitive to ultra-low temperatures. All on a world-class level. This can only succeed if three components work together: Experience, vision and feedback.

Experience. Like no other name, ANSCHÜTZ stands for progress in Biathlon – more than 95 % of all athletes put their faith in ANSCHÜTZ.

Vision. High-tech extends the limits of what is feasible. Lattice structures in the grips revolutionize handling. The granulate used in the 3D printing is lighter, more robust and performs better in tensile and fracture tests than wood. Invisible and very strong magnets integrated in the BIONIC stock hold the magazines absolutely securely.

Feedback. The impressions of the athletes and coaches are the inspiration for new experiments.

Experiments become experience.

The BIONIC stock is available in basic colors gray and white or in the color of your choice (see pages 6-7).

Other middle hand rests are available via our configurator. See pages 22-23.

Grip size XS, S and L without pistol grip shape.

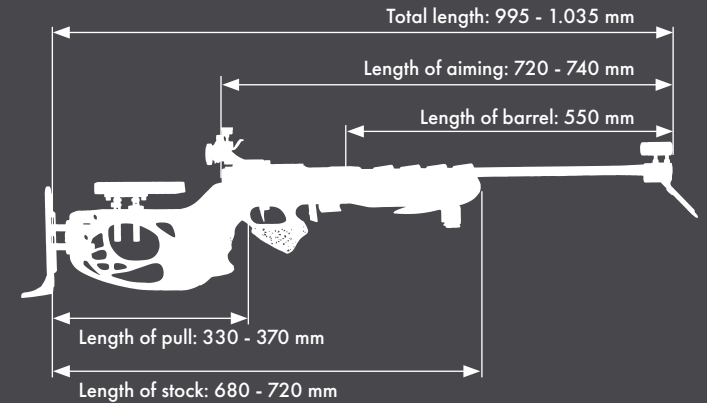

- 1 Butt plate, versatile adjustable
- 2 Hook butt plate carrier with fine adjustment
- 3 Cheek piece with integrated extra cartridge spender
- 4 Biathlon precision rear sight with snow cap
- 5 Snow cap to protect the rear sight
- 6 Sliding safety catch (Back)
- 7 Non-slip bolt handle of the straight pull action
- 8 Extra cartridge spender, right and left from the ejection area, and additional at the cheek piece
- 9 Magazine holder for four 5 shot magazines with integrated magnets
- 10 Nitrided ANSCHÜTZ precision barrel, cold-tested
- 11 **NEW** - Biathlon front sight 6870

- 12 Butt plate lock, reinforces the clamping of the butt plate carrier
- 13 BIONIC Stock, made of high-strength 3D-printed synthetic with technical surface
- 14 Pistol grip (Size M) in Lattice Structure
- 15 Two stage trigger 5020, 90 g - 650 g
- 16 Middle hand rest Standard in Lattice Structure
- 17 Magazine release lever
- 18 5 Round Biathlon magazine
- 19 Hand stop
- 20 Front sight with grooved rail to mount weights or a SCATT adapter
- 21 Snow cap with rubber plug

1827 F COMFORT

UNCOMPROMISINGLY TRADITIONAL

The stock with the tried-and-tested components of an outstanding Biathlon rifle. For lovers of the classic wooden stock. The extendible butt plate with its hook for the armpit can easily be adjusted to different body sizes: from youth to adult. The vertically adjustable cheek piece enhances the individual adjustment. The rifle that grows with you.

The special shape of the riser block COMFORT provides the biathlete with a consistently outstanding and extremely comfortable hold in position. A clamping piece in addition enables an individual length adjustment of the harness.

Grooved rail for mounting a harness.

New cross-country &
biathlon facility in
Herzëb6sch, Belgium

Summer or winter, ANSCHÜTZ biathlon rifles are always a reliable companion.
Made for extreme conditions, no matter if it is hot or cold.

"MY ANSCHÜTZ"

| Around 1970

| Since 2019

1827 F

WRITING SPORTS HISTORY

Almost 50 years lie between the two photos - and the proof of how much ANSCHÜTZ has shaped the sport of Biathlon, indeed decisively shaped it. Essential components of today's competition rules stem from Dieter Anschütz: The change from big to small bore calibers opened up the sport to the general public; more than 95 percent of the athletes worldwide shoot with ANSCHÜTZ rifles. Significant impulses originate from the creative hotbed of ANSCHÜTZ.

Today we are once again on the verge of a technological leap. In cooperation with the umlaut company, 3D printed stocks are being produced which can be adapted to the individual athlete and are close to make-to-order-production. The lattice structure reduces the weight of the grip and support without any loss of strength of the barrelled action. The bedding is based on a sophisticated milled groove which is coated with synthetic resin.

Each rifle is tested in the cold chamber. Biathlon takes place at temperatures as low as -20 °C – an absolute stress test for the material and a guarantee for athletes that everything will work in competition as it should do. In every situation.

1827 F BARRELED ACTION SPEED WINS

Highly complex interplay of precision engineering and material, high-tech, state-of-the-art production and know-how. Everything in the smallest possible space. Created for the will to hit the target - the will to win under any circumstances and in any conditions.

NEW: The safety is equipped with a dry firing feature that allows trigger practice without damaging the firing pin.

1827 F PRECISION BARREL ICE COLD PRECISION

Conically tapered. Nitrided surface, hardened at 500 °C. Withstands temperatures as low as -30 °C and still produces excellent results. With a snow cover to provide protection from the weather.

1827 F BOLT A REVOLUTION

The Fortner straight pull action enables extremely rapid repeating with a completely stable firing position. The bolt with seven locking-ball bearings for perfect safety.

Grouping 1827 F ANSCHÜTZ
5 Shot .22 l.r. at 50 meters at -20 °C.

Front sight

Grooved rail to mount weights or a SCATT adapter

Snow cap with rubber plugs to protect the front sight

5 rounds, caliber .22 l.r.

1827 F MAGAZINE HARDENED STEEL

Blued with a protective layer for long-lasting protection against corrosion. Non-slip, cold-resistant polymer for secure changeover from used to loaded magazines.

1827 F TRIGGER A MASTER STROKE

ANSCHÜTZ

EINFACH EINS WERDEN!

For ultra-quick trigger release. Virtually noiseless. Minimum triggerweight in accordance with the competition rules with the possibility of adjustment to the needs of the athletes.

The location in the rifle with the decisive moment: 50 high-precision parts in harmony in the tightest of spaces for a single task – creating the perfect “interface”. The interface between human and rifle. Near to unique, and meanwhile adapted by other manufacturers.

There is nothing better.

Sliding safety catch

More than 50 high precision parts

Adjustable trigger blade

- Adjustable match two-stage trigger 5020, set in factory to 550g, adjustable from 90g - 650g
- Ergonomic and silent safety catch operation

NEW - BIATHLON FRONT SIGHT 6870 **A UNIVERSAL LIGHTWEIGHT**

The new biathlon front sight 6870 was developed on the basis of the requirements of top international biathletes and supplemented with innovations from ANSCHÜTZ. In its basic configuration, it is 100 g lighter than our previous 6865 front sight. Any number of additional weights can be mounted on the front sight to enable individual weight adjustments. Furthermore, the athlete can choose from different heavy clamping rings. The height of the sight lines on the shooter can be adjusted using spacers of different heights. The extended snow flap reliably protects the front sight and the muzzle from snow and dirt at any height configuration. A SCATT adapter can be mounted on the front sight for dry firing.

Spacers to increase line of sight.
left 8 mm, right 16 mm

Clamp ring aluminum,
approx. 7 g

Clamp ring steel,
approx. 40 g

BIATHLON RIFLES OF THE FUTURE

BIONIC STOCK FROM A 3D PRINTER

1827 F THE STOCK AND ITS DNA

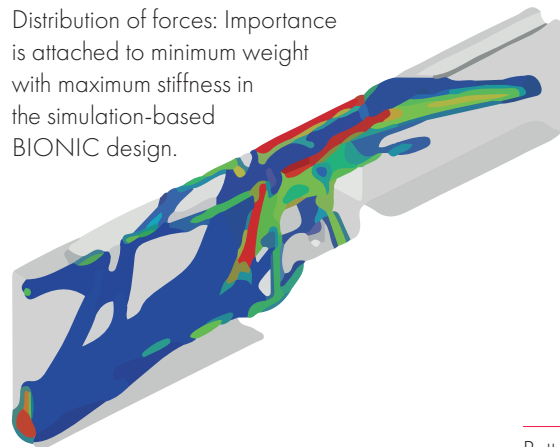

PAVING THE WAY: THE FORM OPTIMIZES THE FUNCTION AND PURPOSE

The shape? Maybe getting used to. The advantage: Undisputed and proven in extreme tests! The **Bionic stock** was designed by computer. It is the ultimate quintessence of the competition rules of the International Biathlon Union (IBU) and the requirements of the athletes. Precisely calculated for perfect handling, for the highest stress with the lowest possible load and for fatigue-free comfort.

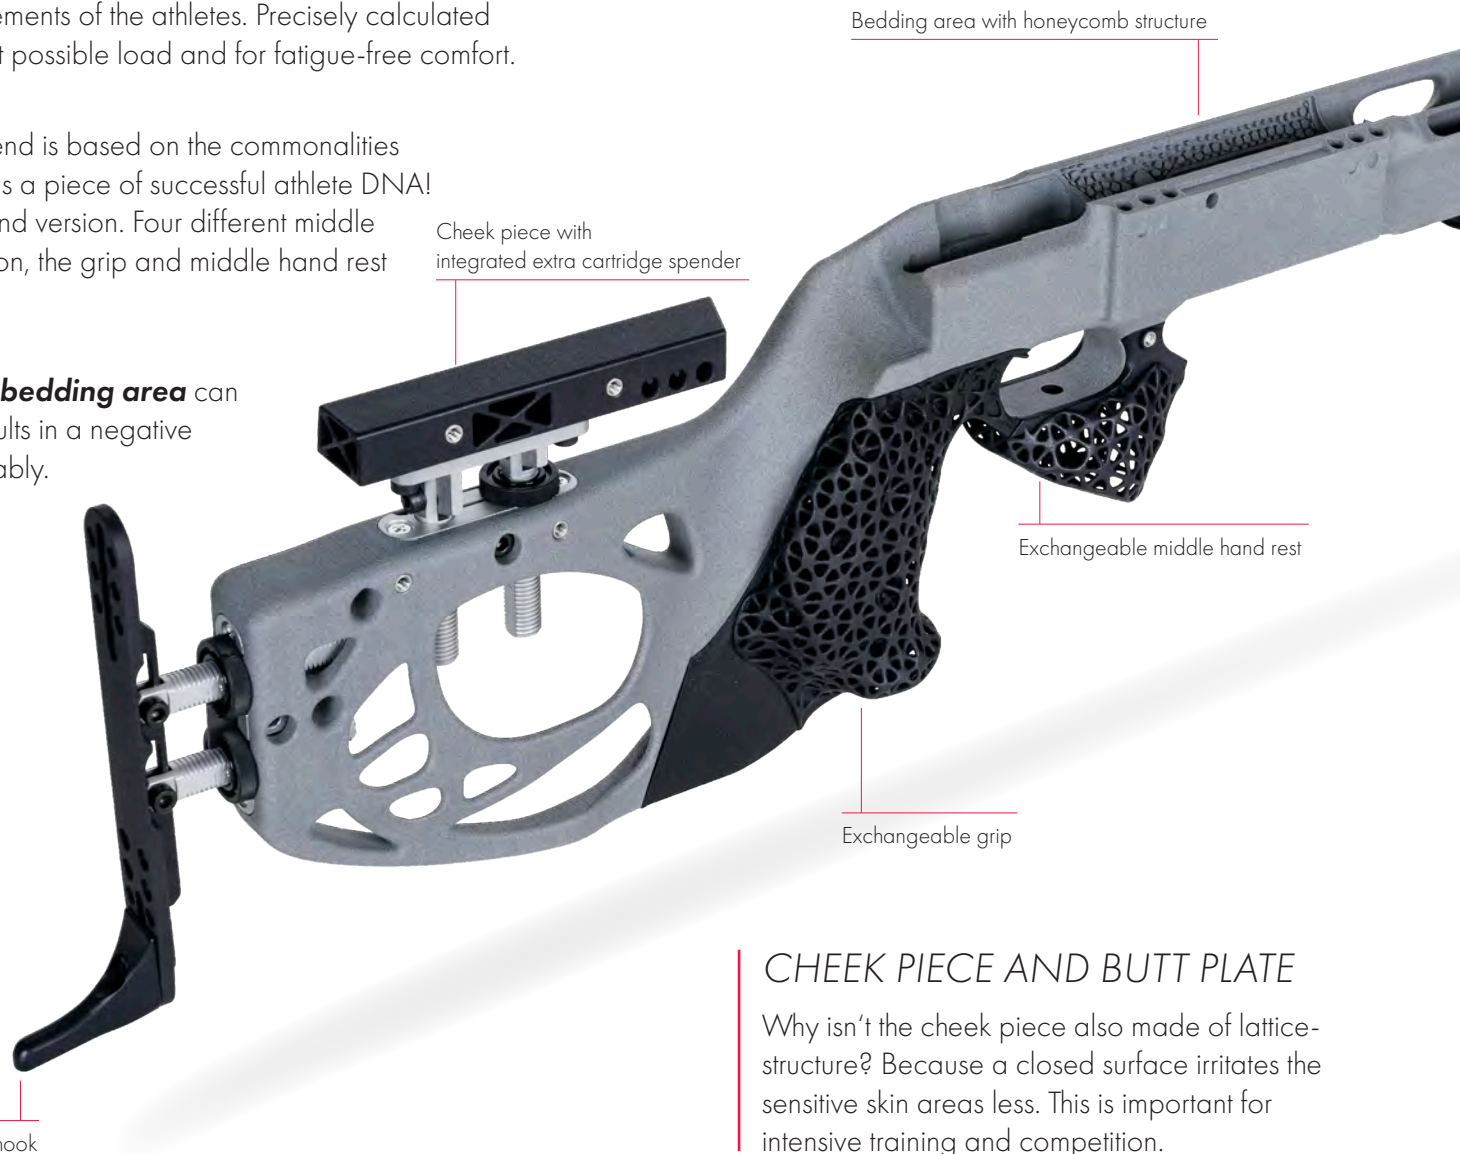

The **form** of the grip and the vertically adjustable fore-end is based on the commonalities of dozens of athletes' handprints - every 1827 F contains a piece of successful athlete DNA! The grips are available in four sizes, as a right or left-hand version. Four different middle hand rests are also available. For maximum customization, the grip and middle hand rest can also be adapted to your personal handprint.

After the marriage of the stock and barrelled action the **bedding area** can be injected with a two-component epoxy resin. This results in a negative of the inner honeycomb structure which adheres immovably. More Information about the bedding at page 19.

Distribution of forces: Importance is attached to minimum weight with maximum stiffness in the simulation-based BIONIC design.

Butt plate with hook

CHEEK PIECE AND BUTT PLATE

Why isn't the cheek piece also made of lattice-structure? Because a closed surface irritates the sensitive skin areas less. This is important for intensive training and competition.

1827 F THE STOCK AND ITS COMPONENTS

VARIABLE FOR ATHLETES WHO GROW WITH THEIR RIFLE

ANSCHÜTZ

EINFACH EINS WERDEN!

GRIP AREAS

The grip, the middle hand rest and the hand stop was developed according to the specifications of athletes: ergonomic, non-slip, secure.

1827 F THE STOCK AND ITS COMPONENTS

INPUT FROM THEORY AND PRACTICE

MATERIAL AND COLOR

The BIONIC stock is delivered in the basic color grey. The coloring is due to the gray granulate from which the BIONIC stock is printed.

Stocks in other colors are individually painted according to RAL color tones. Please note that the surfaces are technical surfaces that may show signs of production.

HARNESS

The partially padded harness supports rapid changeover from the shoulder to the firing position. This new Biathlon harness has been developed in cooperation with Deuter Sport GmbH, a worldwide leading manufacturer of harnesses. We have included Deuter's experience of more than 100 years in our concept for this product in order to provide best possible comfort to biathletes.

1827 F BEDDING

UNCOMPROMISING PRECISION

The maximum is just good enough! The BIONIC stock is equipped with an internal honeycomb structure. At the customer request, a precision bedding that is individually tailored to the barreled action and the stock can be injected into this honeycomb structure.

The bedding, consisting of a two-component epoxy resin, is injected into the honeycomb structure with the help of a special process and fills all the spaces between the barreled action and the stock.

The resulting bedding, individually tailored to your biathlon rifle, increases the precision to the minimum possible grouping of your barreled action.

The bedding is provided by our biathlon service or created by a trained service partner.

If you want to get the maximum precision out of your biathlon rifle, don't hesitate to contact us.

(Glove size 8,5)

Grip S Lattice
(Glove size 7,5)

Grip L Lattice
(Glove size 9,5)

Grip Individual
ANSCHÜTZ or a trained service partner will work with you to create your individual grip, exactly based on your handprint!

4. MIDDLE HAND REST

Middle hand rest Standard Lattice

Middle hand rest Alexa Lattice

Middle hand rest Annett Lattice

Middle hand rest Sabrina Lattice

Middle hand rest Individual
ANSCHÜTZ or a trained service partner will work with you to create your individual middle hand rest, exactly based on your handprint!

5. HAND STOP

Hand stop Standard

Hand stop XL

Hand stop 4738-U2
Available in white, red or black

6. SIGHT SET

Biathlon sight set without sight riser block

This sight set can be used directly after assembly with the front sight 6870 that is already installed.

Biathlon sight set with sight riser block 8 mm

This sight set consists of the Biathlon rear sight set 6827 incl. matching 8 mm sighting line riser block for rear sight and front sight.

Biathlon sight set with sight riser block 16 mm

This sight set consists of the Biathlon rear sight set 6827 incl. matching 16 mm sighting line riser block for rear sight and front sight.

ACCESSORIES FOR THE FINISHING TOUCH

Harness Light,
anatomically shaped bilaminar shoulder straps, softly padded with 3D air mesh, ensure optimum air permeability and a padding effect on the carrying strap. A long joint on the harness itself prevents the head from hitting the gun barrel while running. Weight: Approx. 230 g

Item No.: 011817

Extra cartridge spender 1827-45,
for 6 cartridges, can be screwed onto the stock.

Item No.: 008442

Extra cartridge spender,
integrated in the stock - as with the COMFORT stock.

Item No.: 016569 (not illustrated)

Spare magazine, 5 rounds, cal. .22 l.r.,
made of hardened steel. Blued with a protective layer for long-lasting protection against corrosion. Grippy, cold-resistant synthetic for safe changing from used to loaded magazines.

Item No.: 001160

SCATT Adapter,
for biathlon front sight model 6870. The adapter is simply attached to the profile rail of the front sight. You can then attach the SCATT sensor. A size 2 Allen key is required for assembly.

Item No.: 015786

Harness Feedback,
Due to its compact design, this harness gives the athlete more contact. Weight: Approx. 280 g

Item No.: 015390

Barrel weight 1827F-4750,
2-piece barrel weight made of steel. For individual balancing of your biathlon rifle. Inner diameter: 16 - 18 mm, weight 100 g.

Item No.: 016570

Weight set for Biathlon front sight 6870,
the weights are supplied as a set of 2 weights. The first 50 g weight is mounted on the front sight, the second 50 g weight can be screwed into the first. So you can choose between 50 g or 100 g. Can be expanded at will.

Item No.: 015788 (Weight set)
Item No.: 016839 (Weight, single)

Steel clamp ring for Biathlon front sight 6870,
with this steel clamp ring, it is possible to replace the standard aluminum clamp ring. The steel clamp ring weighs approx. 40 g and thus increases the weight of the front sight by 33 g compared to the aluminum version - for better balance and higher weight at the muzzle.

Item No.: 016192

Biathlon rear sight set 6827,
inkl. rear sight 6807, five aperture inserts and tools,
includes allen keys size 1,5/2/2,5/3/4.
Item No.: 000932

Sight riser block Biathlon 8 mm,
for Biathlon front sight 6870.
Item No.: 015789

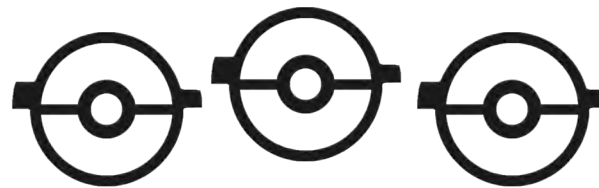

Sight riser block Biathlon 16 mm,
for Biathlon front sight 6870
Item No.: 015790

Magnet pins for biathlon target board,
contains five green and five orange magnets,
numbered from 1 - 5.
Item No.: 015659

Rubber eyeshade 6700-20,
Suitable for all current ANSCHÜTZ rear sights.
Focuses the eye and minimizes distraction from
outside influences.
Item No.: 016639

Aperture Inserts for foggy weather,
thinner than normal aperture inserts and therefore cover less of the target.
Ideal for bad weather. Available in six different sizes.
Item No.: 015244 (2,7/4,7 mm) **Item No.: 015240 (3,3/5,3 mm)**
Item No.: 015242 (2,9/4,9 mm) **Item No.: 015239 (3,5/5,5 mm)**
Item No.: 015241 (3s,1/5,1 mm) **Item No.: 015243 (3,8/5,8 mm)**

Rear sight extension,
for rear sight aperture 1827F-55
and peep sight disc aperture
6850-U6.
Item No.: 016571

Biathlon target board,
single-sided magnetic target board that comes with ten
numbered magnets to indicate shot placement. Target
board and magnets are used at the shooting range to
easily indicate where the hit points are on the paper
target. This board is an invaluable tool both
for the athlete as well as for the coach.
Item No.: 015658

ACCESSORIES FOR THE FINISHING TOUCH

Biathlon target sling 4736,
for the ANSCHÜTZ hand stop 4738-U2.
Very high-quality, non-slip rubber and leather upper.
Item No.: 009188 (Long)
Item No.: 009190 (Long, left)
Item No.: 011043 (JUNIOR, short)

Biathlon Set,
consisting of target sling 4736, arm sling 4734 in S, M or L and
hand stop 4738 black, for a calm, stable prone shooting position.
Item No.: 015840 (Size L, 450 mm)
Item No.: 011470 (Size M, 430 mm)
Item No.: 015839 (Size S, 390 mm)

BIONIC hand stop,
made of high-strength synthetic.
Item No.: 016842 (Size Standard)
Item No.: 016117 (Size XL, right)
Item No.: 016266 (Size XL, left)

Arm sling 4732,
quality construction with velcro closure.
For right-hand and left-hand shooters in size S, M or L.
Item No.: 013329 (Size L, 420 mm)
Item No.: 011151 (Size M, 380 mm)
Item No.: 011152 (Size S, 320 mm)

Biathlon arm sling 4734,
made of non-stretch synthetic material. The inside of the arm sling is lined with Top
Grip material. This increases the wearing comfort and prevents the arm sling from
slipping on the racing suit. The arm sling is adjusted and fixed with Velcro.
For right-hand and left-hand shooters in size S, M or L.
Item No.: 015652 (Size L, 450 mm)
Item No.: 015653 (Size M, 430 mm)
Item No.: 015654 (Size S, 390 mm)

Hand stop SLS,
for biathlon stock COMFORT, made of high-strength
synthetic 3D-printed. Available in three colors.
Item No.: 001086 (black)
Item No.: 015461 (red)
Item No.: 015462 (white)

BIONIC Grips, Lattice structure

made of high-strength synthetic. Available in sizes XS, S, M and L, each in right and left versions.

Item No.: 016447 (Size XS - Right)

Item No.: 015423 (Size S - Right)

Item No.: 015411 (Size M - Right - Pistol grip)

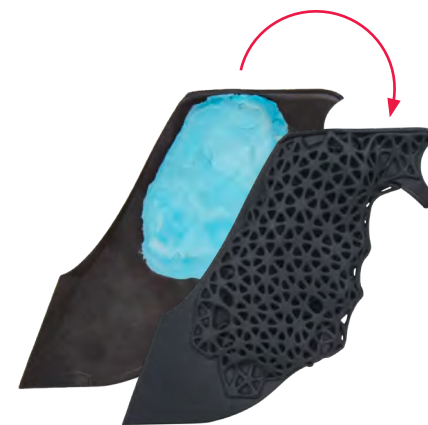

Item No.: 015424 (Size L - Right)

Item No.: 016557 (Size XS - Left)

Item No.: 016255 (Size S - Left)

Item No.: 016257 (Size M - Left - Pistol grip)

Item No.: 016259 (Size L - Left)

BIONIC Grip, Individual

ANSCHÜTZ or a trained service partner will work with you to create your individual grip, exactly based on your handprint!

Item No.: 016228 (All sizes, as right- or left-handed version)

BIONIC middle hand rest, Individual

ANSCHÜTZ or a trained service partner will work with you to create your individual middle hand rest, exactly based on your handprint!

Item No.: 016841 (All sizes, as right- or left-handed version)

BIONIC middle hand rest, Standard

Supplied as standard with all BIONIC configurations. The mold was created and shaped based on numerous handprints.

Item No.: 016843 (Right)

Item No.: 016844 (Left)

BIONIC middle hand rest, Annett

The shape of the middle hand rest Annett is very „round“ and can therefore be gripped like a kind of „ball“.

Item No.: 016449 (Right)

Item No.: 016568 (Left)

BIONIC middle hand rest, Alexa

The shape of the middle hand rest Alexa nestles perfectly between the index and middle fingers and provides strong support in this area in particular.

Item No.: 016448 (Right)

Item No.: 016567 (Left)

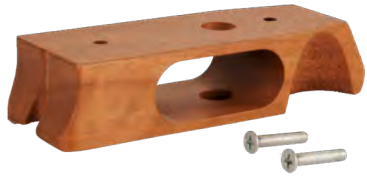

BIONIC middle hand rest, Sabrina

The shape of the middle hand rest Sabrina is kept very flat and nestles optimally between the index and middle fingers.

Item No.: 016481 (Right)

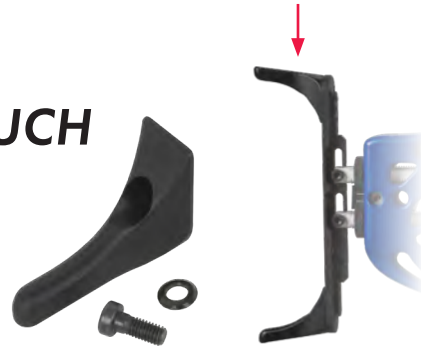

Item No.: 016485 (Left)

ACCESSORIES FOR THE FINISHING TOUCH

Walnut plate COMFORT,
made of beautifully grown walnut,
for COMFORT biathlon stocks,
including fastening screws.

Item No.: 013040

Hook for butt plate Biathlon,
as a replacement, or for mounting on the
upper end of the butt plate.

Item No.: 014860

Soft case 9212 black

comfortable carrying on the back with the carrying frame of the inside biathlon rifle. Removable tarpaulin as weather protection to cover the case and as a work surface. Assortment pockets for storing tools and accessories. The open closure can be viewed at any time through the viewing window. Two carrying handles. New zipper system. **The width of the soft case has been increased so that rifles with high sight sets can also be transported without any problems.**

Item No.: 009186

Firing pin for 1827 F Biathlon barreled action,
as a replacement, assembly by an authorized
gunsmith or trained service partner only.

Item No.: 001228

Mounting tool 4729,
for mounting the firing pin for the barreled action.
Recommended for authorized gunsmiths only.

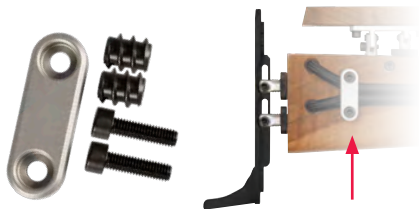

Item No.: 001486

Soft case 9210 red/black

for 1827 F ANSCHÜTZ Biathlon. Easy to carry on the back with the carrying frame for the biathlon rifle inside. Assortment pockets for storing tools and accessories. The open closure can be viewed at any time through the viewing window.

Item No.: 001488

Accessory set for harness,
for attaching the harness to
Biathlon COMFORT stocks.

Item No.: 010377

Your Dealer

„ANSCHÜTZ researches and produces at high-tech level. We draw on a source of traditional craftsmanship which has never become old-fashioned.

This is a tradition which ultimately means consistency and perseverance and not letting ourselves be seduced by short-lived trends, even if they may be tempting.

We therefore see ourselves as the guardians of excellence ‚Made in Germany‘. We manufacture almost all the components of our rifles ourselves.

The pride of our employees in ‚their‘ company is based on the knowledge of their extraordinary responsibility – in the same way as the ANSCHÜTZ company is proud of its employees!“

ANSCHÜTZ rifles are not just simple production firearms. They are individual masterpieces that are designed, assembled and tested with the utmost attention to detail.

Jochen Anschütz
President
